To everything there is a season, and a time to every purpose under the heaven:

A time to be born, and a time to die; a time to plant, and a time to pluck up that which is planted;

A time to kill, and a time to heal; a time to break down, and a time to build up;

A time to weep, and a time to laugh; a time to mourn, and a time to dance;

A time to cast away stones, and a time to gather stones together; a time to embrace, and a time to refrain from embracing;

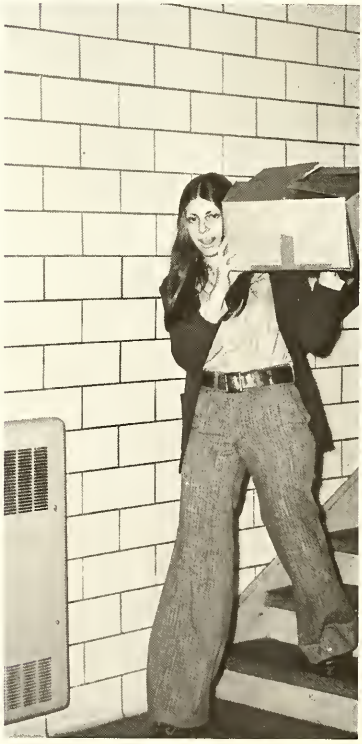
A time to get, and a time to lose; a time to keep, and a time to cast away;

A time to rend, and a time to sew; a time to keep silence, and a time to speak;

A time to love, and a time to hate; a time of war, and a time of peace.

Ecclesiastes III: 2-8

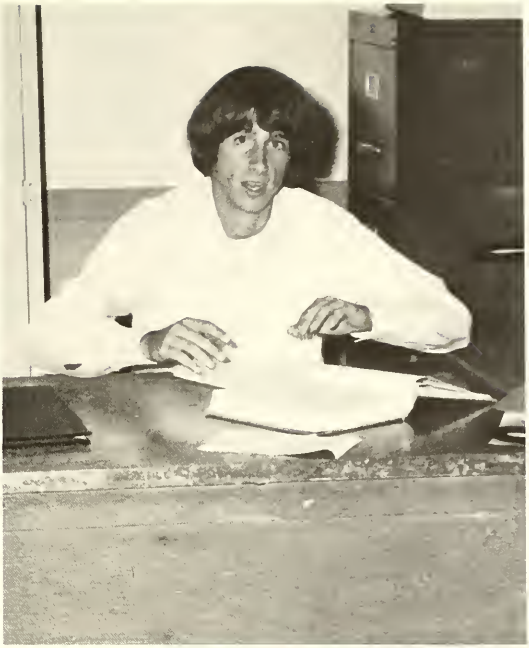
From the beginning of time man has realized that life goes on, and that MOTION will not stop. There is a time and a place for everything, and it is every man's duty to conform to the surroundings which man and nature provide.



Like a flame, today's youth all share in the same daily routines. Then as time advances, each individual creates his own specialized MOTION to which he fits his own personal needs. The MOTION of each individual spreads like the advancing flame engulfing everything that stands in the way of that person's strive for success. MOTION is an important part of everyone, for you are molded by your past MOTIONS and experiences. Without the constant MOTION of today's youth, whether calm or chaotic, the future of our society would reach a standstill; for if the minds of the youth of a society stop, progress, culture, and individual growth would also stop, leaving the world to decay. You are important, you belong, no one before or after you is quite like you; the world needs what you have to offer to the development of universal MOTION.

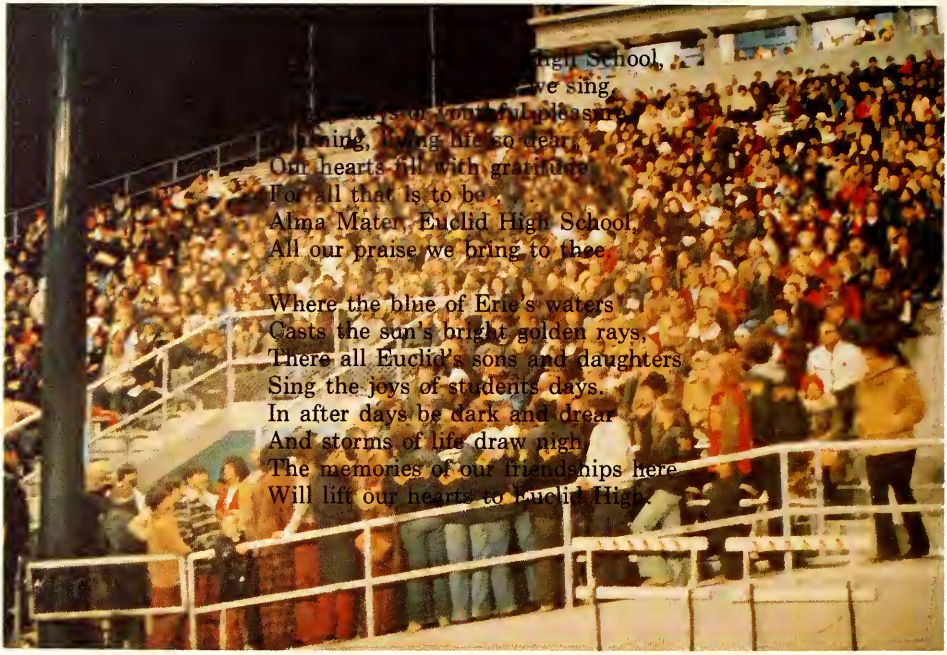
Totally still, the world has stopped, never to start again; a world without MOTION cannot possibly be conceived. Life rampages at a tremendous speed that never seems to leave enough time for all that needs to be done. Man has adjusted to this speed and lives quite comfortably through his progress. With our generation facing an age that is computerized, ultra-sonic, and jet propelled, our duty is to prepare ourselves for this MOTION. The responsibility is ours, and we must meet the needs of the growing, exciting, and often demanding world that awaits us.

Each person has a special purpose and we must realize that no job is too minute or unimportant. Euclid's diverse educational programs have started to prepare each of us for the career that awaits us; we must move with the times and realize that each of us is an important part of the working machine of life. As the gears grind, we must realize that the MOTION of the machine must not stop, for if it does our generation's job will not be finished.



Entering THE SEA OF MOTION at Euclid Senior High School as a sophomore is chaotic and confusing. Havoc strikes the lives of many sophomores, but soon all is well and you are engulfed into the spirit of Euclid High School. Time quickly passes and now you enter school in September as a junior, surefooted and fully aware of THE REGULAR MOTION of a day at Euclid. Being a junior and being sandwiched in the middle of a large school is uncomfortable and you strive to reach the top. As you look back on your sophomore and junior years, you realize that THE MOTION taking place at Euclid High School is comparatively slow to that which comes after graduation. What now — a job, more school — whatever the choice, THE MOTION OF LIFE will not stop to let you ponder the thought for very long. Even as a sophomore and a junior ideas start to mount for the future and the experiences gained at Euclid can only help in making the proper decision for A FUTURE OF MOTION in a world totally unlike the microcosm of Euclid High School.

The MOTION of youth takes many forms, LOVE . . . HATE . . . INDIFFERENCE . . . JOY . . . SORROW . . . APATHY. A line cannot be drawn separating feelings and emotions. Often confusion strikes, and, for a moment, we are scared. Without any realization we again feel safe within a very short time. Because we feel secure at Euclid High School, we let down the invisible barriers of fear and enstrangement and meet people, make friends, and become a part of the body of MOTION that is Euclid. Through our involvement in the activities offered through school, we strive to become well rounded individuals academically and socially and soon realize how necessary other people are to our own individual motion. Often we take for granted all the people who care about us, and work with us, so that we may become stronger in character both physically and mentally. Only a short time from now, we will look back at our high school days and realize some of the best times we have had were spent within the walls of Euclid High School.

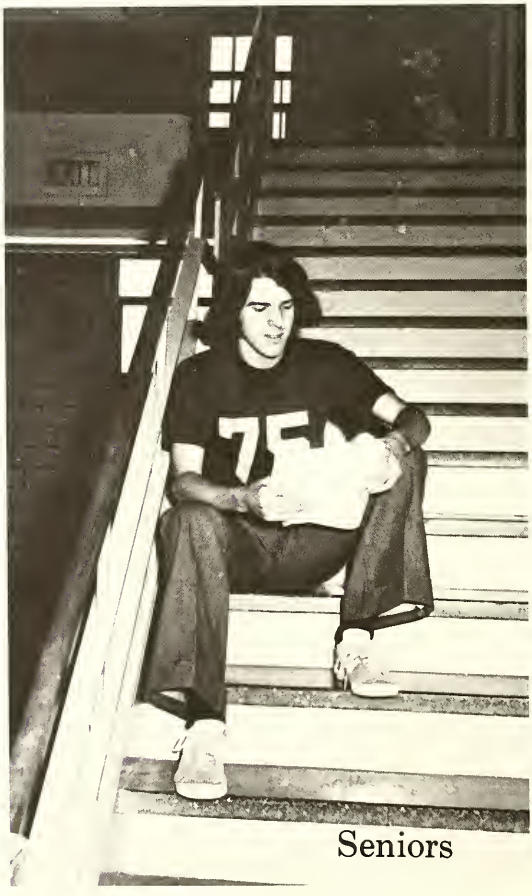


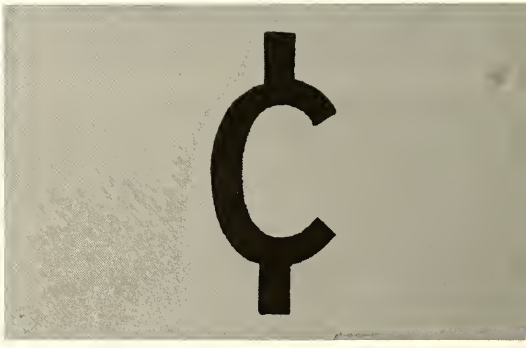
...igh School,
...we sing,
...s of ...ful pleasure
...ning, ...long life so dear,
Our hearts fill with gratitude
For all that is to be.
Alma Mater, Euclid High School,
All our praise we bring to thee.

Where the blue of Erie's waters
Casts the sun's bright golden rays,
There all Euclid's sons and daughters
Sing the joys of students days.
In after days be dark and drear
And storms of life draw nigh
The memories of our friendships here
Will lift our hearts to Euclid High.

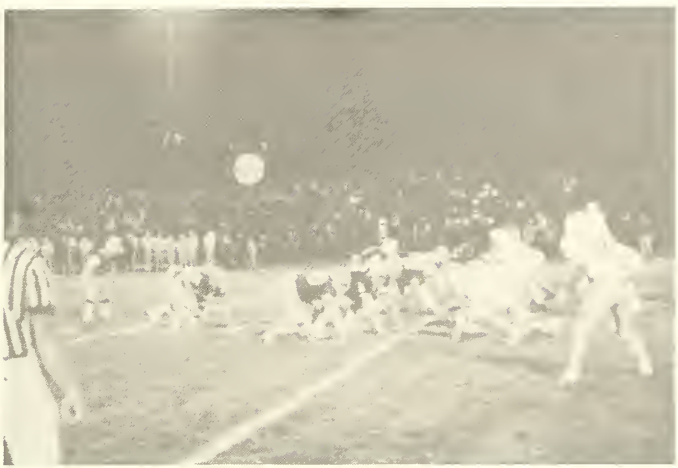
During a lifetime one experiences physical and psychological motion. Each day one faces "People in Motion" whether he is aware of it or not. One is always in motion, either physical or psychological. This motion can be the daily routine of school, or the constant changes in one's mind about his future goals, or the myriad changes of ideas from one class to another, one moment to the next. Our whole life is a series of motions from the crawling infant to the learning adult of today, moving toward tomorrow's leaders of a community and world, of a state and universe. Yet, our physical motions are very important to our futures, too; for example, the athlete's motions of the body must be co-ordinated to do the specific skills of a sport. Thus he combines the physical with the mental motions to be always in top condition. The business student must exercise not only his fingers for the corresponding functions of the buttons or keys, but he must exercise the mind to know how to handle the many functions and problems of the moving business world. Still another, the academic student, from which comes the doctors, lawyers, ministers, and educators, moves methodically through research, formulas, and ideas.

The psychological motion of keeping facts straight and being able to act rationally in emergencies can save, not only one's life, but also a nation's worth, and perhaps avoid past mistakes. Every day we are on motion in motion to form our futures. Even though each day offers a new beginning, those yesterdays add up to help form tomorrow's fates and successes. To move is to advance, and Euclid's seniors are on the march.





Seniors



Seniors

The senior year finds the Class of "75" constantly in motion. Motion involving the daily routines of classroom procedures, leading to the extracurricular activities which are the high-lights of the typical senior year. Getting involved plays an important part in helping to achieve a better class. Group participation is a must in order to make Powder Puff Football, Senior Talent Night, Senior Breakfast and Senior Prom an outstanding success.

As the senior's days at Euclid draw to a close anticipation seems to fill the air and thoughts of future endeavors are common. Plans are made and occupations discovered in the adult world. For many, more education lies ahead while trying to achieve a purpose in life.

. . . and the Senior, constantly in motion, awaits a successful future.

We have lived the past twelve years in the halls and the rooms of schools. For many of us, it is all we know. School is where our friends are. School is our fortress — our protection from the outside world. For the past twelve years, we have lived a life singular purpose; the environment around us has remained relatively the same. Now we are seniors. After commencement our high school years will be only memories.

Exposed to the outside world, we will learn to adjust to the everyday routines found in the adult society. Keeping constantly in Motion will prove to be a key concept in the success of our futures.

EXIT

This year the teachers of Euclid Senior High School worked diligently to motivate the learning capacity of the students at Euclid.

The groups of people who keep our school running smoothly are composed of hard working individuals that perform their duties with much skill and care.

The professionals found here at Euclid High are the best qualified persons found in their particular fields. The faculty promote curricular as well as extracurricular activities, and really do seem to care about the individual student on the whole.

Teachers are critical in the formation of tomorrow's leaders, and Euclid teachers work to make each individual student a success.

Euclid Board of Education

This School year started with a vigorous campaign by the Euclid Board of Education for the passage of Issue 20, the School Levy. Their vigorous effort was a result of their firm belief in the "Excellence in Education in Euclid Public Schools."

With a devotion to the youth of the community, the Board strove to improve, expand, and diversify the curriculum of the Euclid Public Schools.

Mr. Walter Schwegler, Principal

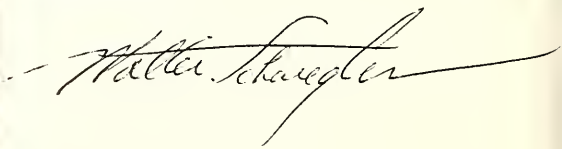
Administration

A yearbook is a memorable document. The Class of 1975 will especially cherish this book because it is a record of school life during their senior year. Each of us enjoy the pleasure of leafing through the pictures of our high school yearbook. Only last week I had reason to get one of my yearbooks to refresh my memory on several friends of the past.

Preserve this record well. It will be a constant source of satisfaction and interest to you, long after your high school days have passed. My sincere congratulations and thanks to the staff and sponsors. Your time and efforts will be appreciated by your many friends and classmates. Special "Best Wishes" to the class of 1975.

May you always be as proud of your school as you have been during your school days; as proud as we have been of you.

Sincerely,
Walter Schwegler



Mr. Schwegler, a good guy to have around!

Deans and Counselors

Each year the counselors and deans spend much time in helping and guiding students with personal and school matters. They are always willing to listen and give suggestions when you have a problem or just need someone to talk to. Although they prefer seeing students under pleasant conditions, they sometimes have to be a little rough, hoping this will help the student. They interest students in social activities, careers, and help promote good studies.

English

Shakespeare, Poe, and Dickens are only three of the many authors English students study every year. Long hours and days are spent writing essays, themes, and book reports which have to reach perfection before they can be turned in for a grade. Many dedicated students learn new ideas every day in English classes.

Social Studies

From man's behavior in the past, present, and future, to Psychology and Government, students learn all they can about the world and its people. They study customs as well as the arts of societies. When molded together, they form informative courses of study on our own country and our world neighbors.

Science

The vast study of plants, animals, and chemical compositions, as well as solar energy, the universe, and the life cycle add to the excitement of studying in the science field. Experiments, field trips, the planetarium, film strips, guest speakers, and demonstrations contribute to the stimulating atmosphere of the Euclid High School Science Department.

Business

Book balancing, timed typing, speedy shorthand, business basics and organized accuracy are all part of Euclid's Business Department. Here, students learn how to use and operate the machines of today's business world. Teachers help them to become the leaders of tomorrow's business world. Most of all they learn how to cope with the hectic things involved with business.

Home Arts

Burnt toast and crooked seams are less frequent in the home economics department. The Home Arts teachers try to teach the students how to cook and sew at an economical level. The classes are always fun and there's always something unusual happening.

Sports

People in motion, the clearest example of which is the world of sport. Whether it be a fullback plunge or a fast break, a 440 or as motion is used to stop motion in a pin, motion is the summation of all sport. When combined with the utmost in concentration and coordination, motion will lead each athlete and team to the highest echelon of their game.

Interscholastic sport is changing and growing each year with the addition of more varsity sports and the changing of rules. This year marks a change in Euclid sports with the end of an era as 1975 is Euclid's last year in the Lake Erie League. Some of the greatest rivalries of the area are coming to an end. The fierce competitions in basketball with Cleveland Heights, and Lakewood in swimming, to mention only a few, will exist only on very special occasions in the future. No longer, though, will league championships hang on the line. This year also marks the beginning of new rivalries with future Greater Cleveland Conference members Eastlake North, and Willoughby South, already becoming almost too familiar.

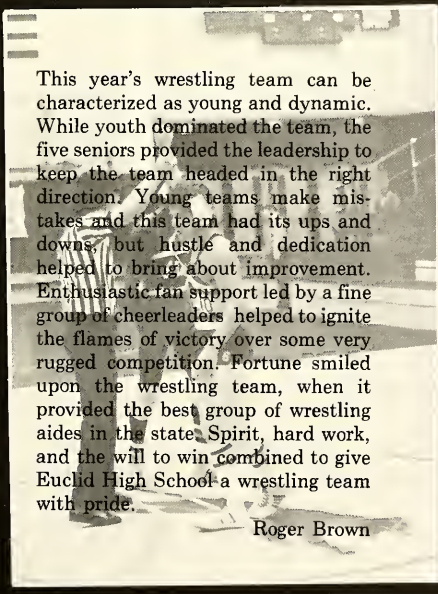
The Panther [illegible]ey Team once again provided considerable action during its season. Our defense built around Captain Mike Vid[illegible] bolstered by sophomore Dave Carl[illegible] and seniors Rick Austin and Ste[illegible] Wilson helped Goaltender Roger Snyder and Dan Farizell keep the opponents scores to a minimum. The offense was led by the line of Todd Morgan, John Barta, and Chuck Ljubi who forechecked the opposition into making mistakes. Lacking scoring finesse, the Panthers were not able to convert scoring chances into goals as often as they should have. Among promising sophomores to return will be Scott Wilson, Les MacLeod, Doug Collet, and Tom Ljubi as well as juniors Ken Walsh, Evan Nunnilly while departing seniors are Mike Basilone, Dave McCunn, and Ed DiLalla.

Alex Dzerowicz



This year's wrestling team can be characterized as young and dynamic. While youth dominated the team, the five seniors provided the leadership to keep the team headed in the right direction. Young teams make mistakes and this team had its ups and downs, but hustle and dedication helped to bring about improvement. Enthusiastic fan support led by a fine group of cheerleaders helped to ignite the flames of victory over some very rugged competition. Fortune smiled upon the wrestling team, when it provided the best group of wrestling aides in the state. Spirit, hard work, and the will to win combined to give Euclid High School a wrestling team with pride.

The pounding pace of girls basketball, netting every point with graceful skill led the girls' team to a brilliant season. Each girl tried her best to contribute to the team machine that had its share of wins and losses. After long hours of practice and drills the girls looked sharp on the court and always displayed an admirable amount of team spirit and pride.

1974 Junior Varsity Tennis Team Row 1 (L to R): Dave Devito, John Petkovsek, Bob Campus. *Row 2:* Gary Keefe, Doug Erdman, Gary ZaCardi, Mike Taton, Coach Rob Harmb.

With the close of the 1974-1975 season Coach Chet Rojeck terminated his long career dedicated to the athletics, and in particular football. Football, FOOTBALL. Experienced by victory and defeat, Coach Rojeck was instrumental in developing some of the great young athletes produced in the Greater Cleveland Area. His many talents and selfless dedication has been an example for all students as well as his colleagues. We at Euclid High School wish him well in his new career. We are sure he will be as successful in this, as he has been in his former profession.

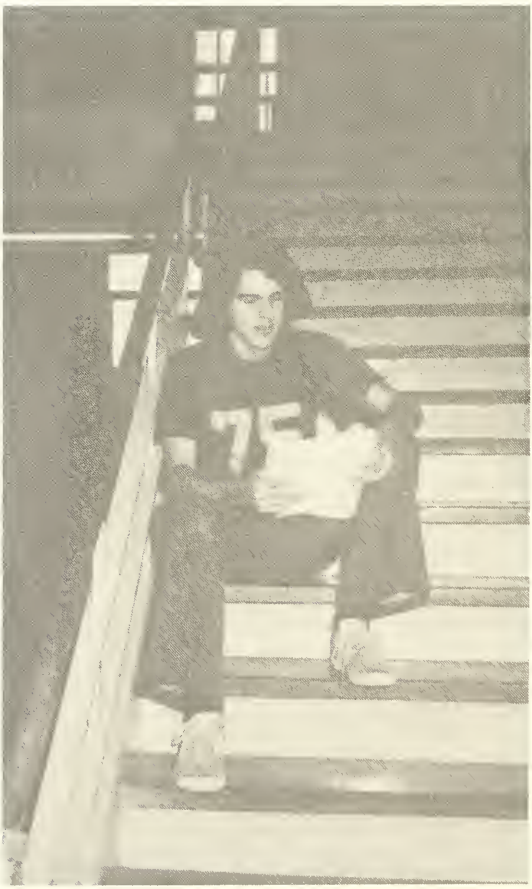
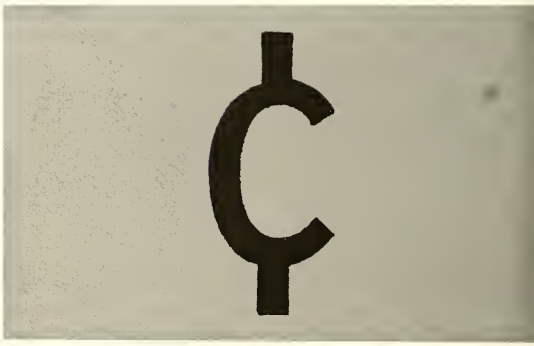
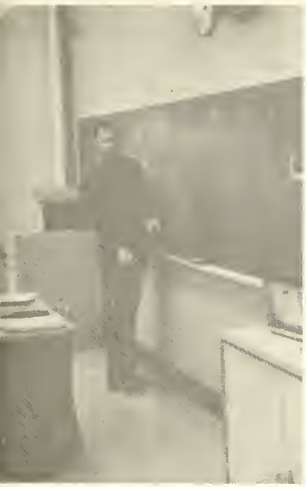
Underclass







Underclass

The underclass find themselves constantly in MOTION as they strive to find their niche in a new environment.

Sophomores find a whole new avenue of activities at their disposal and eagerly step into the MOTION of the school with spirit. They participate in football cheers, homecoming, and other aspects of social life. Constantly in MOTION, the sophomores are changing classes throughout the day, and their attitudes and ways of thinking change rapidly, too. Meeting of new faces and making new friendships also add to the sophomores' busy year.

As a junior, an attitude toward high school has already been determined. The juniors are in the middle of the fast moving, changing, rush of life within the school. They sometimes find themselves confused and frustrated, but that soon fades away with the bustling of new activities. Junior cabinet gives them opportunity to express their views and give new ideas for fun and unifying class activities. Both the sophomores and juniors join together on taking new and challenging interests in life; never allowing a dull moment to occur, they move into the MOTION and flow of everyday classes and high school life.

Activities

People in motion are everywhere, getting involved with the many diversified activities and clubs to satisfy each individual person. Moving from Ad club to Wai Napolo it is easy to discover people growing within themselves and reaching out to others.

ACTIVITIES IN

MOTION

Child Care

Experience is the greatest teacher and this adage would be approved by the girls who participate in the day care center program at Noble Elementary School. They get on-the-job experience by working one-half of their days working and playing with the children in an effort to learn more about early childhood education.

American Field Service

American Field Service is an organization always in motion, constantly holding various exciting activities for its members, such as ice cream parties, hayrides and picnics. AFS is not strictly a "fun" club though; the members enthusiastically enter into various fund-raising ventures to help sponsor the Exchange Student Program for Euclid's foreign students who visit us annually.

See How They Run

This year's fall play was a fast-moving comedy based on mistaken identity. All who were involved worked hard, and after one weekend it was all memories.

The question bigger than who the real vicar was seemed to be "who owned the place."

Those who witnessed opening night saw a mysterious hand closing an open door while all those backstage hid.

Student Store

Student Store—supplies and endless lines of students with countless items such as certs, notebooks, pens, and other necessities desperately needed by the students and teachers. The staff of Student Store works hard to keep everything moving in the course of the day by counting the money and always hoping for a "perfect" day.

Basic Horsemanship does their activity, riding, every week at Red Raider under the leadership of Mrs. Smith. All the members of the club enjoy riding and appreciate the gracefulness of horses. For some of the riders it is a new experience, but many others are learning more advanced and more difficult skills on horseback. The club members also learn proper care of their horse.

A touch of class and culture is added to EHS by Humanities East. It provides the opportunity for students to see first-rate plays such as *Godspell,* hear a concert by the Cleveland Orchestra, and observe some of the world's greatest masterpieces of art on its exciting excursions around Cleveland. Surely this is the club for anyone who enjoys and appreciates good art and culture.

The Happiest Days of Your Life

Did you realize that your school days are The Happiest Days of Your Life? Well, according to this year's winter play, they are. When boys and girls start going to the same school, many problems arise, such as school bags being filled with syrup and fishcakes being used as weapons. The problem is solved, however, when an additional school arrives on the scene!

Student Council

With relations stabilized between students, faculty and administration, the 1974-75 Council accomplished much more than just a successful Homecoming and Winter Festival Dance. This year's members strove to unite the school, reduce apathy, and inform the students of their rights and privileges. Some of this year's Student Council accomplishments can be seen by just taking a walk around the school. Student Council has set up a suggestion box, an advertising board, a current events calendar and is responsible for the activities messages heard every Wednesday on the morning announcements. Student Council has accomplished only as much as the students have allowed; for the power of this organization lies in the students' hands.

On February 8, 1975, the Euclidian staff visited the U.S.S *Cod.* The staff was under the direction of Commande Dacosta USN who is in charge of the Naval Reserve Cente and recruiting and went to the trouble of opening and wa ming the sub for us and joined us in some pictures.

Sports and Photography Editor: George Landskow.

culty Editor: Laura Kordich

Advisors: Robert Hall, Nat Dickinson

ne staff wishes to express our sincere thanks to the com-
ander for his help and interest. We were treated quite
armly, in spite of the freezing weather. Thanks again,
ommander, with your help we all had a "maritime".

WE ARE AN EQUAL OPPORTUNITY EMPLOYER

we place your help wanted ads anywhere-u.s.a., canada, u.k., europe

The World's largest recruitment ad agency is headquartered here in Cleveland. Call us at 861-3787 and get acquainted!

As specialists and pioneers in modern recruitment advertising, we have developed techniques which are unusually effective. Our ads work. Word gets around. That's why we now handle recruitment advertising for many of the leading firms in the nation. ☐Nationwide Advertising Service, Inc. has 21 offices in key labor markets over the country—all linked to the Cleveland Headquarters by Telex and Fax equipment for instant transmission of advertising copy and layouts. We have a staff of nearly 100 persons, copywriters, artists, researchers and specialists in recruitment advertising service. Our agency is different. We concentrate on satisfying the needs of Personnel Executives. Whether it's for a one-inch ad or a full page, a new brochure or a billboard. We offer you unique services. For example, when you are out-of-town on a recruitment trip: We'll place your ad, with a local telephone number, and take your calls, pre-screen applicants and set up appointments for your interviews. Find out what we can do for you. Ask for our free publications.

And now presenting the 1975 EUCLIDIAN. Enjoy it. Remember with it. Laugh with it. Cry with it, and above all, please, value it. The work that has gone into the 304 pages bound in front of you cannot be duplicated. Here you see a traditional Euclid yearbook, but it is uniquely different, for it is filled with the reflections of all those who toiled over a layout, a copy block, a headline, or an advertising sale. Soak in every page, and please try to overlook any mistakes —for to err is human, to forgive divine, as each Euclidian member came to realize this year.

From deadline to deadline, I saw the formation of a piece of art, for is not art an aesthetic value? Just as the clay of a sculptor each section molded and fitted together until the bust was done, and now we set it before you along with the other memories you have of your high school years. We hope you will enjoy it as your mind is refreshed from page to page.

I know I do not know even one-half of the people that will "read" our book of MOTION; but as each page is turned, you are meeting me and the other staff members who placed a small part of themselves on each page. I implore everyone who looks at this yearbook to read the captions, the copy or descriptive paragraphs, and to look at each person they do not know and promise themselves they will make a friend with at least one of them, for your friendship will be as unique as the pages of memories in this book and, I hope, as unforgettable.

The students, faculty, administrators, and lay workers of the population of Euclid High School are thematically the People in Motion found in this year's Euclidian. One can only hope that each individual found in the Euclid High learning system will use his motion for the betterment of his colleagues as well as mankind. Our book hopes so, I hope so, and the Staff hopes so!

Thank you all; you know who you are, for we have shared some awesome and very memorable months working together — you are *GREAT!*

Sincerely,

Nancy Ivansek

PEOPLE IN MOTION is the best way to describe the development of the 1975 EUCLIDIAN. Much credit is owed to the many staff members that spent long devoted hours to produce this book. There were some chaotic times and some conflicts; yet there were many fun times and good memories that occurred during its production. Each member put all he could to make this book possible. Well, here it is — FINISHED. I hope that those who read this appreciate the finished product as much as we enjoyed producing it. I hope the book holds eternal memories of the 1974-1975 school year. I also hope that you the reader, many years from now will pick up this book to "relive those high [illegible] proof [illegible]

I would also like to thank some very special people that helped to bring this book to you, besides the hard working staff and the editors, I would like to give special recognition to the following people: First, George Lundskow for taking me back and forth to Raimors so many times and also to the photography staff for their hard work to get the pictures taken. There is also Morrie and Doug along with the staff at the studio that did all they could to help us meet our deadlines. Very special thanks to our two advisors, Mr. Robert Hall and Mr. Nat Dickinson, who, offered good suggestions yet allowed us to produce our book, our own way. I would like to express a very special thanks to Commander Allen Dacosta for his interest and some of his valuable time that he took out in both planning and in appearing in our staff pictures.

The U.S.S. Cod 224 served as an excellent background for our staff pictures. A belated thanks goes to Mr. Ted Theodore, for allowing us to use his pictures of commencement for the 1974 supplement when ours failed to turn out. Next, but not any less important than the others, is Burt Coburn, our representative from Inter-Collegiate Press. Burt was always willing to hear our suggestions whether good or bad and always ready to help if we got in a jam. Last, but not least (chief-honcho), Nancy Ivansek, who was great. There were times when we were at each others throats near deadlines, but if anything an everlasting friendship blossomed. I hope you enjoy our book a little more each time it is read. Thanks again, everyone. So here it is, ENJOY IT!!!

Dr. Spartico Di Biasio

The Spark of Education

As the class of 1975 leaves high school to embark on new careers, we realize the many benefits and privileges that have come to us over the past thirteen years. Without proper guidance and leadership, Euclid schools would have been just *another* school system. However, under the direction of Dr. Spartico Di Biasio, our education has been one of challenge — challenge to meet the needs of today and tomorrow. As we meet our challenge, we hope that you, Dr. Di Biasio, will find the new life you have chosen to be challenging as well as rewarding.

Throughout the years, 1968-1975, Euclid schools have developed programs and buildings that make it a leader in education in the state. Yet, even before he became Superintendent, Dr. Di Biasio had given many years of service to the youth of Euclid as teacher, coach, and administrator. For your many years of service, we say, "Thank you" and "Good luck!"

Sorry, We Missed You

To produce a Yearbook is a gigantic undertaking. To produce a perfect one is impossible. That our book pleased many makes us happy. Yet, we understand your disappointment when you cannot find *your* picture, your friend, or your favorite personality. Your co-operation and assistance will always be appreciated. Stop in our office and say hello, or better yet, lend a hand.

Baseball

This year's baseball players encountered many rough opponents but came through with a striking victory. The team achieved a fine record as a result of many hours of hard practice and few errors while playing. Good sportsmanship and team work—a combination of great running, throwing, and catching—were necessary in each and every game.

Girls' Track

The 1975 girls' track team had a stupendous record of 8 wins and 3 losses. The Rebellette Relays involved 12 teams and Euclid was second. The girls also took a second in the first pre-district meet. The District Meet brought the team into tenth place and sent six girls to state. Kathy Sweigert, Elaine Petkovsek, Laura Wardeiner, and Vickie Cesen made up the mile relay team which won sixth place in the state. Third place was achieved by Vickie Cesen who jumped 17'½" in the running long jump. The Girls' Track team, as a whole, excelled in competition.

Boys' Track

The 1975 Boy's Track Team met the challenges of running with speed and striving for endurance, jumping far and leaping high and throwing for distance with strength and power. The boys prepared well with the help of Coach Ramlow, and their outstanding accomplishments in competition exhibits their true athletic ability.

Carousel

Carousel, this year's Junior Prom on May 17, proved to be a success with its carnival atmosphere. In the setting of merry-go-rounds and clowns, couples had a festive time. Those who attended will treasure the memory of the fun and excitement forever.

Guess who's Terry's escort for the evening?

The beginning of a big night.

A quiet moment together.

A toast to us.

The party's over.

Keith-our leader.

Dueling Tubas

Senior Talent

Lights! Action! Showtime! The Senior Class presented plenty of fun and entertainment at the annual Talent Night on March 22 and 23. The productions ranged from dramatic and comical acting to dancing and musical combos. The money earned went towards financing the Senior Prom.

Senior Prom

Somewhere over the rainbow lie visions of tuxes and formals moving about in a haze of dreams. Couples form lasting memories as they dance to the music of Lou Elgart. They move on to after-prom festivities with food and continue dancing into the early hours of the morning.

Cheek to cheek.

Last tango in Euclid.

We'd rather be alone!

I bet you can't guess what I'm thinking.

Can't you see we're busy!

The Class

On June 3, 1975, the Euclid Senior Class met for the first time as a whole to receive their diplomas and bid each other farewell in the presence of their friends and families. "Although many of us are more capable than some of us, none of us are as capable as all of us," said Debbie Blevins, Co-valedictorian. Yet, you, the graduating seniors, can be proud of your last days at Euclid for your splendid co-operation that made this a memorable year and one to be emulated by future classes." We are

proud of you," said Dr. Spartoco DiBiasio, Superintendent, and Mr. Schwegler, Principal.

As the 1975 Class passes into history, they go forth with the knowledge that their *Alma Mater* is ever ready to welcome each of them back. For them, their education is all in front of them as they take up the role of citizens in a free society. "May each of you prosper and strive onward to meet the challenges before you."
